IOF Code of Ethics

‘Team presentation’ and ‘Top 10 list’ policy

Both in social media and in displays in accommodation sites there has, over time, developed a tradition to create so called ‘top-10 lists’. Here, competitors from different teams appear to have been ranked according to physical appearance. In the same media, ‘team presentation’ pictures and videos that may appear to be sexually expressive have been published.

Such activity is incompatible with the IOF Code of Ethics and the IOF Policy on Preventing Sexual Harassment and Abuse, and any such activities may lead to sanctions towards individuals or the federations they represent, should these individuals be found responsible for the activities.

The acceptable level as to when a picture or a video may be seen as sexually expressive is unlikely to be the same for different individuals. A guiding principle will be to look at what clothing the competitors would use in e.g. a sprint competition. Any less clothing than this should not be expected to be considered acceptable. This both relates to posts in a JWOC-related social media or web page and in physical prints in the JWOC accommodation sites.

Team officials of all teams entered for JWOC 2019 are requested to discuss these principles with all competitors that will be entered for the JWOC 2019 competitions. This issue will also be addressed as an item on the agenda of the first Team Officials Meeting in connection with JWOC. Any questions or comments regarding this topic can be put to the JWOC 2019 Social Officer: Vibeke Vogelius, +45 24255506, info@jwoc2019.dk or Steering Group member Morten Pedersen, +45 29208944, info@jwoc2019.dk

For reference, the IOF Code of Ethics and IOF Policy on the Prevention of Sexual Harassment and Abuse can be found on the IOF website.
